GANA 마케팅 전략 발표 — 영어 스크립트

Marketing Strategy Presentation · Speaking Script & Q&A Bank

2026-07-22 · 발표 흐름 순서대로 구성 · 모든 문장은 **짧게** 설계됨(비즈니스 영어 정석)
▮ = 여기서 한 박자 쉬기 · 숫자는 또박또박

> **사용법** — 다 외우지 마세요. **§2의 15문장만** 외우면 됩니다. 나머지는 화면에 띄워놓고 보면서 말해도 됩니다. 영어 발표에서 원고 보는 건 흠이 아닙니다.

1. 발표 흐름 & 스크립트 (약 20분)

① 기회 — 회장님을 내 편으로 (3분)

먼저 "빼자"가 아니라 "지켜드리겠다"를 명확히. 여기서 방의 태도가 결정됩니다.

"Let me start with an opportunity. ▮
We are **not** here to remove the phrase 'world's largest.' ▮ We are here to make it defensible.

Today, the claim has no measurement axis. That is the problem — not the ambition.

So we checked the competition. ▮
Viralgen — owned by Bayer — claims the world's largest AAV capacity. But that is **total facility capacity**. Their single batch is **`2,000 liters`**.
Forge Biologics runs up to **`5,000 liters`**. But they only say 'one of the largest.' They do not say 'the largest.'

The single-batch axis is open. ▮ Nobody has claimed it.
And we are already at **`5,000 liters`**, expanding to **`10,000`**.

So my proposal is this: ▮ we keep the ambition, and we attach a ruler to it.
'Largest single-batch class AAV capacity.'"

② 진단 — 왜 지금은 그걸 못 쓰는가 (5분)

문제를 '결함'이 아니라 '기회의 장애물'로. 절대 비난 톤 금지.

"But right now, we cannot defend that claim. ▮ Three reasons.

First — our numbers do not agree with each other.
Our own site says **`5,000`** liters on one page, and **`6,000`** on another. Batch count, plasmid output, completion dates — they all differ by source.
A buyer will not conclude 'they are not the largest.' ▮ They will conclude 'they don't know their own facility.' That is worse.

Second — we claim certifications, but we cannot hand over proof.
No downloadable certificates. No registry links. In due diligence, that fails.

Third — we lost the search result.
Search our own product names. You will find distributors — not us. ▮ Some are not even authorized.

So the real problem is not awareness. ▮ **It is trust infrastructure.**"

③ 전략 3축 (8분)

여기가 본론. 3개만. 특히 '순서' 논리가 사업가들에게 제일 잘 먹힙니다.

"**Axis one — we are not one business. We are two.**
Aesthetics sells products to distributors and clinics. Short cycle, many customers.
The CDMO sells manufacturing services to biotech. **`12 to 24`** month cycles, few customers, high value.
Different buyers, different channels, different KPIs. ▮ If we run one marketing strategy for both, both fail.
So we separate the channels and the tone — **but we share the trust assets.**

Axis two — we are not a filler company. We are an ingredient platform.
We produce HA, PLLA, PCL, PDRN and peptides in our own GMP facility.
If we position as a filler brand, we compete with hundreds of Asian manufacturers on price.
If we position as an ingredient platform, ▮ that field is much smaller.
And our R&D center supports this. We have NMR, cell sorters, cell therapy equipment. ▮ Filler companies do not have that.

Axis three — and this one matters most — sequence.
If we spend on advertising today, that traffic still goes to distributors. ▮ We would be paying to help them.
So the order is: fix the facts, build our own channel, take back control, **then** create demand.
We build the container before we pour."

④ 오늘 결정 요청 (3분)

회의를 결론으로 끌고 가는 구간. 3개만 명확히.

"I would like three decisions today. ▮

One. Approve the two-track separation — aesthetics and CDMO marketed separately.
Two. Approve the wording: **'largest single-batch class,'** with the measurement axis attached.
Three — and this one I cannot decide. ▮ We need an owner and a deadline for the fact sheet. Seven numbers must be fixed. Marketing cannot choose them. Production and QA must.

Without number three, ▮ nothing else can be defended."

⑤ 데이터 요청 & 마무리 (2분)

모르는 걸 약점이 아니라 다음 단계 요구로 전환. 프로처럼 들립니다.

"Finally — what I need from you. ▮

I have analyzed our sites, our assets, and our competitors in full.
But I do **not** have the demand side. I need five things:
revenue by company, ▮ CDMO customers and utilization, ▮ factory utilization, ▮ our main markets and distributor list, ▮ and why distributors choose us.

I did not want to propose a budget without that. ▮ That would be guessing.
Give me those five, and I will bring you a costed plan.

Thank you."

2. 반드시 외울 15문장

이것만 입에 붙으면 발표는 넘어갑니다. 나머지는 읽어도 됩니다.

	English	쓰는 순간
1	"We are not removing the claim. **We are making it defensible.**"	오프닝 · 회장님 안심
2	"**The single-batch axis is open.** Nobody has claimed it."	기회 제시
3	"Their single batch is **2,000 liters**. Ours is **5,000**."	경쟁사 비교
4	"Forge says '**one of** the largest.' They do not say 'the largest.'"	축이 비었다는 근거
5	"We keep the ambition, and **we attach a ruler to it**."	해법 요약
6	"They will not conclude we are not the largest. They will conclude **we don't know our own facility**."	숫자 통일 설득 — **가장 강력**
7	"The problem is not awareness. **It is trust infrastructure.**"	진단 요약
8	"We lost the search result to our own distributors."	현 상태
9	"**We are not one business. We are two.**"	2트랙
10	"We are not a filler company. **We are an ingredient platform.**"	리포지셔닝
11	"If we advertise today, **we are paying to help our distributors**."	순서 논리 — **돈 얘기라 잘 먹힘**
12	"**We build the container before we pour.**"	순서 논리 마무리
13	"Marketing cannot choose these numbers. **Production and QA must.**"	팩트시트 오너 요청
14	"We selected Thermo Fisher **as our equipment supplier**."	🚩 파트너십 아님
15	"**I haven't verified that yet. I'll confirm and get back to you.**"	🚩 **모를 때 — 제일 중요**

3. 🚨 영어로 절대 하면 안 되는 말

❌ 하면 안 되는 표현	✅ 대신 이렇게	이유
"We have a **partnership** with Thermo Fisher."	"We **selected** Thermo Fisher as our equipment supplier."	사실 아님 · 실사에서 깨짐
"We are **the** world's largest AAV CDMO."	"We are in the **largest single-batch class**."	실증 책임(표시광고법)
"Our products are **FDA approved**." / "FDA registered"	언급하지 않기. 부득이하면 "Our facility is **registered with FDA under MoCRA**."	🚩 최고위험 · misbranding
"**CE approved**" / "certified by the EU"	"**CE marked** under EU MDR."	CE는 승인 제도가 아님
"Class **2a**"	"Class **IIa**" (투 에이 → "two-A")	비전문가 표기
"Better than **Rejuran**."	"A **2% PDRN** skin booster."	비교광고 리스크
"Our batch is **6,000** liters." (확정 아님)	"**5,000** liters running, expanding to 10,000." (TF 보도자료 기준)	미확정 수치 단정
"We have **10,000** liters."	"We are **expanding to** 10,000 liters."	미래를 현재로 = 자기모순
"**Anti-aging** treatment."	"**Regeneration.**"	효능 클레임 규제

4. Q&A 대응 뱅크

예상 질문	답변
"So are we the largest or not?"	"On **single batch** — we are top tier, tied with Forge. To say '**the** largest,' I need to verify three more companies: WuXi, Catalent, Charles River. ▮ Until then, I recommend '**largest class**.' It is safe, and it is still strong."
"How much will this cost?"	"It is staged. **Phase zero is one week and very low cost** — the security certificate, the emails, the typos. I would like approval for that today. ▮ For the later phases, I need the revenue data first. I don't want to guess with your money."
"Where does our revenue come from?" 🚨 모르는 질문	"**I don't have that data** — and that is exactly what I'm asking for today. ▮ I analyzed everything that is public. The internal numbers are the missing half."
"Why not just advertise?"	"Because the traffic would still land on distributor sites. ▮ **We would be paying to help them.** First we fix our own channel — then advertising works."
"When will we see results?"	"The leading indicator is **new distributor contracts** — not traffic. Phase zero is one week. The new site is roughly `two to three months`, including six languages."
"Why isn't our cosmetics site on Google?"	"It is not a design problem. ▮ It is a **rendering** problem. The site is a single-page application, so the initial HTML is empty and crawlers see nothing. **Server-side rendering fixes it.** It is an addition, not a rebuild."
"Can we change the logo?"	"The GANA R&D mark stays **unchanged** — that is already decided. We only reproduce it in high resolution. ▮ Cosmetic and Dr. Park marks can be updated."
"What about anti-aging?"	"It stays as our **internal north star** — but externally we say '**regeneration**.' ▮ Anti-aging as a public claim creates regulatory exposure. Regeneration says the same thing safely."
"Is the Thermo Fisher deal a partnership?"	"No. ▮ We **selected them as our equipment supplier**. If we call it a partnership and a client checks, we lose credibility on everything else."
"Do we have CDMO customers?" 🚨 모르는 질문	"That is on my data request list. ▮ And it matters — the industry currently has **overcapacity at clinical scale**. Our story depends on utilization, not just capacity."

5. 응급 문장 — 막혔을 때

못 알아들었을 때
"Sorry — could you repeat that?"
"Could you say that once more, a little slower?"

질문을 확인할 때 (시간 벌기)
"Let me make sure I understand. ▮ You're asking about ____, correct?"

모를 때 — 가장 중요
"**I haven't verified that yet. I'll confirm and get back to you.**"
"I'd rather give you an accurate answer than a fast one."

부분만 알 때
"Let me give you what I've confirmed — and flag what I haven't."

생각할 시간이 필요할 때
"That's a good question. ▮ Let me think for a second."

기억하세요 — "I'll confirm and get back to you"는 **감점이 아니라 가점**입니다. 특히 규제·숫자 영역에서는요. 아는 척하다 틀리는 게 유일한 실패입니다. 그리고 22살이 모른다고 하는 걸 깎는 사람은 없습니다.

발음 주의 단어

단어	발음	단어	발음
vector	벡터 (벡-터)	capacity	커**패**서티
plasmid	**플**래즈미드	utilization	유틸라이**제**이션
defensible	디**펜**서블	infrastructure	**인**프라스트럭처
distributor	디스**트리**뷰터	aesthetics	에스**테**틱스
regeneration	리제너**레**이션	liters	**리**터스
